

## Projects & Collaborations

As a HASTAC [scholar](#) mentored by Professor Joe Ugoretz, Dean of Teaching, Learning and Technology at the Macaulay Honors College, Karen Gregory is happy to use her scholarship funds to purchase books from our Digital Labor Library. These books will become part of the lending library at the [Macaulay Honors College](#), located on 35 W 67th Street New York, NY.

Available books are noted on our library page and CUNY students are welcome to check these books out-- as well as write book reviews for our site.

If you'd like to write a book review, please contact Karen Gregory at [kgregory@gc.cuny.edu](mailto:kgregory@gc.cuny.edu).

We are also looking forward to writing and working with the members of [Critical Digital](#), an interdisciplinary humanist workshop dedicated to understanding, thinking through and critiquing digital technology and culture.
